Performance Made Simple

Not all performance is created equal. With a myriad of performance upholstery brands in the market, many proclaiming a singular feature about the material, there is confusion about what truly constitutes performance as it pertains to upholstery, and which products would be the best choice in a given environment.

When choosing a performance upholstery fabric or faux leather it is important to consider the durability and longevity of the material, and also to determine the specific needs for the setting in which it will be used. These can entail a variety of factors:

- Contract grade abrasion and pilling resistance
- Enhanced stain resistance
- A liquid barrier
- Resistance to bleach and other disinfectants
- Don't forget about environmental attributes of the material!

This guide serves to highlight some of the benefits of various product types and performance brands.

RESILIENCE

The faux leather that builds luxury into performance.

At the crossroads of luxury and performance, you will find Resilience faux leathers. The supple, soft hand, and authentic aesthetic will elevate any interior, while the exceptional durability, stain resistance and bleach cleanability offer continued peace of mind.

Exceptional Durability

Soft and Supple Hand

Superior Stain Resistance

Ready for Bleach

Phthalate-Free

WRITER'S BLOCK™

The super stain resistant polyurethane.

Spills and splatters won't matter with Writer's Block performance polyurethanes. The repel-and-release stain inhibiting system protects from the toughest stains including ink, indigo denim dye-transfer, or food and drink. Beyond clean, Writers Block faux leathers are engineered to outperform, with healthcare grade hydrolysis resistance, and bleach cleanability.

Ink and Graffiti Resistant

Repel and Release Technology

Denim Dye Transfer Protection

Ready for Bleach

PVC-Free

SiO™

The medical grade performance silicone.

SiO™ is a very pure form of silicone resin that, with its angular structure, offers greater durability, better scuffing and scratch resistance, better resistance to bleach and cleaners, and a better surface touch.

Flame Resistant without FR Additives

Anti-Microbial/Bacterial without Added Chemicals

Inherently Ink & Stain Resistant

Ready for Bleach

Suitable for Outdoor & Marine Use.

RESILIENCE TX

The textile with performance in its DNA.

Resilience TX upholstery fabrics are designed for performance from the yarn up. Providing durability where it's needed most, with built in stain protection, superior abrasion resistance, anti-pilling fiber, and stress-free seam strength. Love your upholstery, not just on day one, but for years to come.

Extreme Durability to 100,000 DR

Piling Resistant

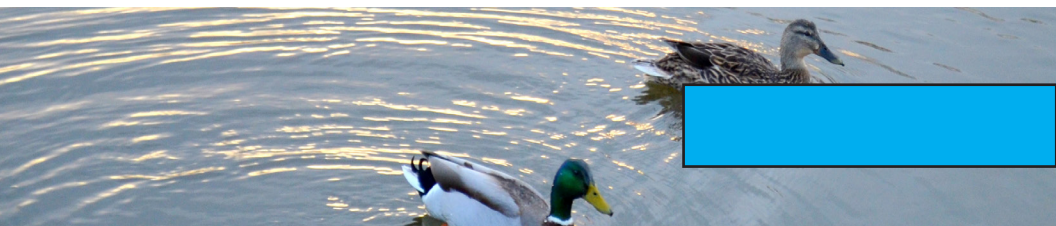

Enhanced Stain Protection

Contract Grade Seam Strength

SUPREEN™

The fabric that keeps liquid out and beauty in.

Supreen marries cutting-edge woven and coated technology to create a unique liquid-barrier textile. The result is a hard-working upholstery fabric with a luxurious look and a surprisingly supple hand. Supreen outperforms in the places and spaces where life hits hard.

Surprisingly Soft

A Total Liquid Barrier

Ready for Bleach

Environmentally Conscious

Designed to Outperform
