# MARINE PERFORMANCE SILICONE UPHOLSTERY

## STATE OF THE ART SEATING

Envision Performance Marine Upholstery is made from 100% SiO<sup>™</sup> Silicone, making it luxurious and comfortable, durable and virtually maintenance free. Envision is specially engineered for use in marine and outdoor environments to offer extreme resistance to sunlight, saltwater and the elements.

## FROM SAND TO SILICONE

The basic raw material at the heart of the silicone is a specific type of sand called Crystalline Silica. It is an abundant resource found in almost every type of rock on Earth.

## WHAT IS SiO SILICONE?

SiO<sup>™</sup> is an ultra-pure form of silicone that is designed to offer the highest level of performance. Materials made with SiO<sup>™</sup> silicone are inherently fade-resistant, resistant to mildew and pink staining, durable to withstand scuffs & scratching and exceptionally easy to clean. SiO's angular resin technology offers enhanced durability coupled with the softest and most comfortable marine seating surface available today.

Conventional Silicone Resin

SiO<sup>™</sup> Angular Silicone Resin

## WHY SILICONE UPHOLSTERY?

Silicone offers inherent physical performance benefits, without the addition of harmful chemical additives such as flame retardants, antibacterials, antimicrobials or fluorocarbons. Silicone is a healthier choice and better for the environment than conventional coated fabrics.

SiO marine silicone upholstery offers a high level of performance combined with softness and suppleness, typically associated with luxury upholstery materials.

## PERFORMANCE

Envision with SiO™ Silicone is engineered for performance from the inside out.

- Extreme Solar Resistance
- Pink Stain & Mildew Resistance
- Saltwater Resistance
- Superior Stain Resistance
- Resistance to Oils and Suntan Lotion

Envision with SiO™ Silicone offer performance with a conscience.

- Non-toxic
- Hypo-allergenic
- No Chemical Additives
- PVC Free
- Solvent Free
- Low VOC

## CARE & CLEANING

Envision is designed for ease of care and peace of mind.

Maintenance is easy and hassle free – most stains can be simply removed with a cloth and warm water. In the rare instance of a more stubborn stain, the material is designed to easily withstand cleaning with alcohol or diluted bleach.
